How to Make Your Cake

CONTENTS

STEPS

- 1 Pop open baking case and empty contents of cake mix into baking case. 
- 2 Fold your water measure by pinching the ends and holding tightly. Fill with water and add to baking case 4 times. Stir thoroughly with mixing spoon to ensure all dry mix, even in the corners, is combined. 
- 3 Bake in microwave for 60 seconds on high or until cake surface is dry*. If more cooking is required, only add 10 seconds at a time. **Caution: May be hot! Allow to cool for 5 minutes.** **Cooking based on a 900W microwave. Cooking times may vary.* 
- 4 Once cool, cut or tear off the corner on frosting package and squeeze. Spread smoothly. 
- 5 Add sprinkles to decorate. Top with cake topper. Take a photo and share it @InstaCakeCards  **Enjoy Your Treat!**
